

La petite chouette de Notre-Dame

Sculpted on the foothills of Notre-Dame church, this small wooden owl who gave its name to the street is a reflection, knowledge and clear-sightedness symbol. It's a good omen. We caress it with the left-hand - heart side - to make a wish. The Black cat and the earthenware eagle-owl on the roof are also lucky-charms as well as the salamander, Francois 1st emblem.

The route of the owl

Enjoy in 22 steps the beauty and the architectural richness of the Grands Ducs d'Occident's city by following the route of the owl marked out with small triangles with its image. Maison Millière is the number 10 between the lucky charm owl and the Hotel de Vogue. More information at the tourist information office.

Placed between Notre-Dame church and the hotel de Vogue, you'll find Maison Millière in the historical centre of the capital of Burgundy., by the Palais des Ducs of Burgundy and the museums.
